Summary

Dorothy's care costs have jumped significantly this quarter at nearly double the budgeted amount, which means you'll need to discuss with BlueBerry Care what's driven this increase and whether it's temporary or reflects a new pattern going forward. The good news is that she's receiving regular support with 122 services delivered and hasn't needed hospital care over the past year, which suggests her care is keeping her well. There are some flagged items in the system that appear minor, but it's worth checking in with her care team about what these relate to, just so you understand what's being monitored. The priority right now is getting clarity on those costs so you can plan your budget accordingly and make sure you're getting the level of care you're paying for.
