Summary

Dorothy's care costs have significantly overrun this quarter at more than 180% of budget, which means you'll need to discuss expenses urgently with BlueBerry Care to understand what's driven these extra costs. The good news is that Dorothy received 122 services without any hospital stays over the past year, suggesting her care is keeping her well and at home where she wants to be. There are 50 low-level flagged anomalies in the data, which aren't urgent concerns but are worth reviewing with her care provider to make sure everything is being recorded correctly. The most important thing to focus on right now is getting clarity on those budget overages so you can plan properly for future quarters and avoid surprises.
