Care partner:	Andrew Davids (son)
Cultural background:	Not stated

Narrative

Louisa Davids is an 82-year-old woman living alone in her own home. She has Type 2 diabetes managed with insulin injections twice daily, and mild cognitive impairment documented by her GP. She reports feeling socially isolated since her husband passed away last year and does not currently attend any community activities.

Louisa is independent for most activities of daily living but requires prompting for personal hygiene and support with grocery shopping.

Services Delivered

Service	Category	Frequency	Amount
Personal care assistance	Independence	1.5 hrs / week	\$117.00
Domestic assistance	Everyday Living	1 hr / week	\$68.00
Nursing (insulin support)	Clinical	0.5 hr / fortnight	\$69.00
Care management	Administration	10% of services	\$25.40

Allied health, social support, and transport are not currently included in this plan.

Goals

To be recorded at the next review meeting.
