--	---	---	---------------------------------------

Summary

Dorothy is receiving wonderful support with 122 services this quarter and no hospitalisations, which shows the care is working well to keep her healthy at home. However, there's an important issue you need to address urgently: the spending has reached 182% of budget, meaning BlueBerry Care has provided nearly double what was approved and you're now facing an \$5,453 bill beyond what was planned. While the low anomaly flags suggest the care quality is solid, you should contact BlueBerry Care and your support coordinator straight away to understand why costs have escalated so significantly and to work out a sustainable plan going forward. This level of overspend isn't sustainable, so getting clarity on what's driving it will help you make informed decisions about Dorothy's care package.
