

Annual Financial Summary

Dorothy Smith · Classification 4 · BlueBerry Care

FY2027 · 1 July 2026 , 30 June 2027

Summary

Dorothy's care costs about \$10,957 for this year, with the government covering most of it at just over \$8,900 while you're contributing about \$2,039. The really important thing to understand is that Dorothy has used only 1.5% of her lifetime funding cap of nearly \$138,000, which means there's plenty of room to increase her care support in the future if her needs change. However, her classification as Level 4 currently shows an annual entitlement of zero, so you'll want to check whether this might affect future access to services or if a reassessment could change this. Right now the finances are sustainable and you're in a good position, but it's worth keeping an eye on Dorothy's care needs as they may shift over time.
