## Summary

Dorothy's care costs have nearly doubled her quarterly budget, which means BlueBerry Care spent \$5,453 more than planned this quarter. While it's wonderful that she's received plenty of support with 122 services and hasn't needed hospital care, this spending pattern needs urgent attention to understand whether her needs have genuinely increased or if there's been a billing issue. The 50 low-level flagged items suggest some inconsistencies in how services are being recorded or delivered, so it would be worth asking BlueBerry Care for a detailed breakdown of what drove the overspend. Getting clarity now will help you budget properly going forward and ensure Dorothy's getting the right level of care at a sustainable cost.
